

Dear Parents,

As off Friday the 20th of March 2020, the schools in United Kingdom will close under the Government instructions, because of Corona Virus. We do understand that your children might stay home for at least a month or two and it might be challenging to provide a hot meal on the daily basis, as majority people were instructed to work from home, and further restrictions are coming in the following week.

Morden Mount will get in touch with you in regards to providing children entitled to free school meals with the information about the arranged meals during the school closure or a food voucher. However, we have sourced other outlets where you can get help providing your children with food.

Food Bank vouchers.

Each food bank works with different frontline professionals, such as doctors, health visitors, churches, social workers and the [Citizens Advice](#), who make referrals to the food bank using a voucher.

The food bank and referral agency use the voucher to gather some basic information. This will help them to identify the cause of the crisis, offer practical guidance and prepare suitable emergency food.
